

Gulf Coast Charters Network — Captain Outreach Scripts

High-AOV path · Private / yacht / spear / celebrations · 12% fee · Print and take to the dock

The offer (say this the same every time)

We send premier guests. Guest pays ~30% deposit on our site. **Network fee 12%**. Captain keeps ~88%. No monthly fee. Not exclusive. Not a coupon desk. OTAs take 20–30%.

Hunt first: USCG + insured private offshore / inshore / sunset / yacht / spear. Skip cheap party-boat volume until the premier roster is full.

1. Dockside — 90 seconds

Open

"Hey Captain — I'm building Gulf Coast Charters Network. Not another coupon desk. We send private and celebration trips — offshore, inshore, sunset, yacht, spear. I wanted to meet you before I list anyone."

Why they care

"Guests book on our site, pay a deposit, get a real itinerary and weather call. You show up to a guest who already knows the plan. We're not taking your walk-ups. We're filling premium days you already want."

The number

"We take 12%. You keep the rest. No monthly fee. Not exclusive. OTAs take 20–30% — we're not that."

The ask

"If your insurance and ticket are current, I'd like to list one signature trip with you — your best private day — and send you two or three real inquiries this season. Fair?"

If they stall

"No paperwork today. I'll text or email a one-pager. You decide. I only want captains who want this kind of guest."

Close

"What's the best email or text for the one-pager? And what's your best private trip — hours, boat, max people, from-price?"

Do not say: guaranteed bookings · cheapest on the beach · "we're like Zeke's / FareHarbor" · that they work for you.

2. Cold email

Subject: Private Gulf trips — 12%, no monthly fee

Captain [Last name] —

I'm [Your name] with Gulf Coast Charters Network. We book private and celebration days on the Alabama Gulf — offshore, inshore, sunset, yacht, and spearfishing — for guests who want a premier trip, not the cheapest seat.

I'm looking for a short list of credentialed captains to list. Not a coupon site. Not exclusive.

How it works: guest books on our site and pays a deposit (Stripe). You get a clean itinerary and a guest who already knows the plan. **Network fee is 12%**. You keep the rest. No monthly software fee.

If your USCG ticket and insurance are current, I'd like to list **one signature private trip** with you this season.

Reply with: (1) best private trip — hours / boat / max guests / from-price (2) best phone to text (3) whether I can stop by the dock this week.

3. Follow-up (5–7 days, no reply)

Subject: Re: one signature trip

Captain — short follow-up. Still holding a slot for one private listing if you want it. 12%, no monthly, not exclusive. If now's a bad season to add a desk, no harm. I'll leave you be. [Your name] · [phone]

4. After they say yes

Subject: You're on the Network — next 3 things

1) USCG + current insurance COI. 2) Trip card: hours, from-price, max guests, included/excluded. 3) Days you actually want Network bookings this month. We take 12%. Guest pays ~30% deposit; you get the packet the same day.

5. Text

"Captain — [Name] w/ Gulf Coast Charters Network. Premier private/sunset/spear guests, not coupon traffic. 12% fee, no monthly, not exclusive. Can I email a 1-pager or swing by the dock?"

6. Objection handles

They say	You say
"I already have FareHarbor."	Keep it. We're another direct door. 12% only when we send the guest — no monthly.
"12% is high."	OTAs take 20–30% and own the guest. You keep ~88% and the relationship.

"I don't need more bookings."	Then we're a bad fit — we want better days, not more cheap seats.
"Will you steal my guests?"	We send our guests to you. Your walk-ups stay yours. No exclusive.
"I hate computers."	You don't run software. We book; you get a text/email packet. Show up and run the trip.
"What's the catch?"	We curate. If CX or weather honesty slips, we stop sending. Quality both ways.
